

Dear Dulwich Neighbour

In case you were wondering where all that traffic has gone, it has been pushed on to neighbouring roads – Croxted Road, East Dulwich Grove and Lordship Lane.

Our friends on Half Moon Lane, Norwood Road, Dulwich Common, Village Way and Underhill Road are suffering too.

Like you, we have thousands of children walking and cycling to school on our roads. The pollution is so bad that most days you can smell it. Every day we breathe it in.

We don't think the Council should be diverting traffic on to our streets. We all want less traffic, clean air and safe routes to school. We all worry about our children's lungs.

So please register to have your say in the May consultation
www.southwark.gov.uk/dulwichreviewreg.

It's time to end 24/7 closures and find an area-wide solution that makes life better for the many, not just the few.

With thanks from all of us at Croxted Cleaner Air too @AirCroxted; Concerned East Dulwich Grove Residents; Reopen Melbourne Grove @GroveReopen; Concerned Lordship Lane Residents; One Dulwich @RealOneDulwich www.onedulwich.uk/get-involved

Croxted Road

Lordship Lane

Dulwich Common

An idling engine can produce this much pollution in one minute.
